**In The Specification:**

On page 7 of the English language translation of the German PCT Application, please add a new paragraph following the eighth full paragraph to appear as follows:

Figure 4 shows one example of a composite film comprising three multi-layered laminated films in accordance with the present invention.

On page 12 of the English language translation of the German PCT Application, please add a new paragraph following the first full paragraph to appear as follows:

Figure 4 shows one example of a composite film in accordance with an embodiment of the invention wherein the halogen-free composite film includes three stacked multi-layered laminated films sealingly engaging one side of a functional element. In this example, each of the multi-layered laminated films are the same, but this does not necessarily have to be the case in all applications.
